

Dear Readers,

Wishing you all a very Happy and Peaceful Islamic New Year. May the Almighty Bless us all with good health and give strength to overcome all hurdles. The new year comes and reminds us of sacrifices and valour to face challenges..

As we continue to navigate the challenges of the current times, it is more important than ever to stay connected and informed. This newsletter serves to share important updates, upcoming events, and highlights the impact of our projects and initiatives.

As we all know, SSC and HSC results were announced in the month of June 2024, and we are happy to share that our scholarship holder students have performed exceptionally well but we are proud of all our students irrespective of their marks.

The results of our Crescent School and Junior College also have been very good. The students of our adopted municipal schools have also performed well.

After the results, college admissions and the time before that is indeed stressful. Since it's a new milestone in an aspirant's life, it is natural to feel some stress about college admissions and whether you are making the right decision. Also, with the variety of course and college options students have these days, choosing wisely becomes even more important. There are a lot of new fields that have picked up quickly in the past few years, leading to an array of newer courses to choose from and we at MESCO try to cater the needs of the students through our different education schemes and timely counselling and career guidance.

Now we would like to share the major events of the previous quarter.

By grace of Almighty and your support, MESCO was felicitated by LTMG Hospital, Sion, Mumbai on its 77th Foundation Day for supporting needy patients in their treatment.

Our Relief of the poverty department distributed 21 sewing machines to deserving individuals. Our education counsellors conducted "Aptitude Test" for EAS students of Std.X, XI and XII and did their individual counselling along with their parents subsequently.

We are happy to share another initiative of MESCO to serve the impoverished section of the society. Under our Education scheme we have received permission to adopt Petit Municipal Urdu School Bandra for F.Y. 2024-25 from the BMC department.

We intend to start coaching for Competitive exams on weekends at our Study Centre at Mahim for those aspiring for Government jobs.

Lastly, we would like to take this opportunity to express our gratitude to our Donors and well-wishers for their continued support. Let's work together to make a positive impact in our society and beyond.

Regards,
MESCO

SUCCESS STORY

Ishwari Sawant

My first encounter with MESCO was in 2013 when I was in Std 9th. My Father was the only earner in the house and it was difficult for him to manage my education expenses and my sister's medical expenses with his salary. My mother was a house-wife and I had a younger sister with down syndrome.

One day my father got to know about MESCO through his work place and the rest is history!!

I was associated with MESCO for 6 long years under EAS Student Scholarship.

I remember being the timid and underconfident girl to being an independent and confident individual. It was a beautiful yet thrilled journey witnessed here by MESCO. Throughout my journey MESCO played a vital role and I am eternally thankful for all of it.

I completed my B.Sc.IT and am currently working in an MNC as a Software Engineer. MESCO not just supported me financially but also contributed towards my personal growth. I have attended multiple counselling sessions, seminars and camps which helped me groom my personality.

I cherish many memories with MESCO and I am forever grateful towards the organization for contributing in people's life selflessly.

MEDICAL

MESCO was felicitated by LTMG Hospital on the occasion of LTMG Hospital's 77th Foundation Day on 24th April, 2024 for supporting needy patients in their treatment. A heartfelt thank you to all the Donors and supporters who have contributed to MESCO's efforts.

GRATITUDE STORY

Mr. Santosh Kukreja, a resident of Ulhasnagar, struggling with epilepsy and have undergone brain tumor surgery at J.J hospital. Living with his wife and four other family members, Santosh's dream of a normal life seemed distant due to his health conditions and financial problems.

Despite his health issues, Santosh works as a salesman in a readymade garment shop, earning a salary of Rs 12,000 per month. His wife supports the family by giving tuitions. Yet, their combined efforts often fall short, especially when it comes to the high cost of Santosh's medications, which are essential for managing his epilepsy and post-surgery recovery. Due to financial burden, often he skips his medications, leading to frequent health setbacks and making it impossible for him to lead a normal life.

However, a ray of hope emerged when Santosh's name was selected in MESCO's lottery system for monthly medications under MA scheme. This blessing came at a crucial time. With the continuous supply of his required medications, Santosh's health began to stabilize. Santosh is profoundly grateful to the donors whose timely help has made a significant difference in his life.

Forth Coming Event
